PLANTER TECHNOLOGY NOW AT AQUA-FLO SUPPLY

Do the plants that you install or maintain in pots and containers need frequent watering? Do they have unsightly drip irrigation tubes going to them? Do the plants suffer from being over watered or under watered? Are there ugly drainage stains below the pots? If you've experienced these problems, then you will be excited to know that Aqua-Flo is now a stocking authorized distributor of Planter Technology Inc.'s innovative container irrigation systems.

This manufacturer makes a complete line of irrigation systems to fit into a wide range of containers. They also make their own line of decorative pots and containers with the irrigation system already built in and a broad selection of plastic planter liners. Since 1979, Planter Technology has been the leader in container irrigation systems. Their proven patented vacuum-sensor technology precisely monitors the soil moisture level, minimizing under watering, over watering, and labor. They make a vast combination of sizes and styles of containers and container systems, the most common of which are now in stock at Aqua-Flo. Contact your local branch manager or outside salesperson for more details.

SEAN BILLANTE NAMED AS OUTSIDE SALES MANAGER

In June 2003, Sean Billante was named Sales Manager for the outside sales staff of Aqua-Flo Supply. Sean will organize and provide sales training and guidance to Aqua-Flo's various branch outside salespeople and even for Aqua-Flo's specialty outside sales staff (Golf, Central Controls, Municipalities). Sean brings a broad resume from many levels of the landscape irrigation industry. He spent two years as a landscape installation foreman and four years as an outside sales rep for wholesale irrigation distributorships in Las Vegas. Sean then joined Hunter Industries in 1996 and quickly became District Sales Manager. He joined Aqua-Flo two years ago. In addition to his role as Sales Manager, he will continue to handle outside sales responsibilities for the Torrance branch.

SPECIAL ORDERS DON'T UPSET US

Aqua-Flo stocks thousands of items in ample quantities in all of our branches. However, we also have quick access to the countless number of items available from the hundreds of manufacturers that we distribute. So, for those rarely-specified items or maybe for that light fixture with the exotic finish or even for that unusual repair part, we will gladly special order them for you. Unlike some of our competitors, we place the order immediately with the manufacturer and we will call you as soon as it arrives so that you get it quickly. We expedite special orders better than anyone else, because we respect the value of your time.
